

Making Ministry Matter.

THE MISSION

As a follower of Christ, you've been **transformed** by the work of Jesus on the cross into God's living art; His masterpiece. The question is, transformed for what? Transformed to live the American Dream? Transformed to make yourself famous or known? Transformed to build earthly kingdoms of wealth?

Bob Upgren is convinced you've been transformed to participate in the Great Commission.

In short, he believes you & your people were built for ministry.

Bob has spent his entire life launching ministries that extend beyond the walls of the church. His award winning programs have permeated nearly every sector of society including the world of sports, business, education, government, art, family and faith. The London Free Press coined him, ***"one of the most innovative thinkers in ministry and religion."*** Tribal Leaders, Professional Athletes, Government Officials, Hollywood Actors and more have joined hands with him across North America in doing ministry.

As a speaker, Bob uses art to teach. He is one of only a handful of "new school" chalk artists in the world and has used this talent to bring audiences to their feet around the world. To date, millions people have heard his message. He has performed over 2,000 live chalk drawings and has a client list reads like a who's who of organizational excellence.

Behind it all, however, is one singular mission; empower people to discover and launch ministry in their life.

"You will never be more alive than when you are doing the meaningful ministry God created you to do."

As a leader, there is untapped potential in your midst. People, with unrealized dreams of serving God in your presence.

So let's do this! Let's lead these masterpieces of God and inspire them to recapture their dream of doing something eternally significant. Let's teach them what the Bible says about their ultimate purpose and refocus their sights on what truly makes them come alive.

Bring me to your stage and put me in front of your people and I promise you - The art may "wow" them, my communication may engage them, but the message God has given me will transform them forever.
